

Betamix

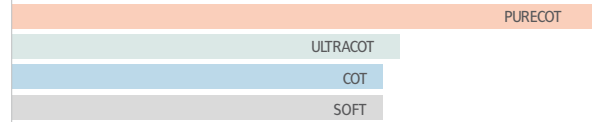

Neurosurgical Sponge

redefining surgery

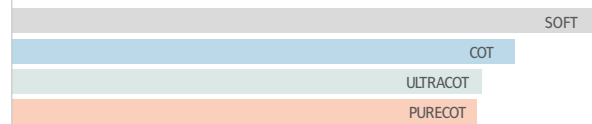

Absorbency

The capacity of a surgical patty to absorb

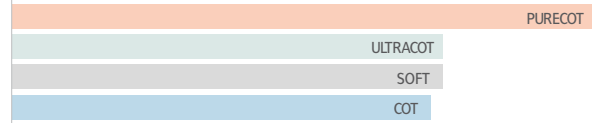

Flexibility

The degree of flexibility of the patty to freely bend, mold, or otherwise be shaped to conform to tissue

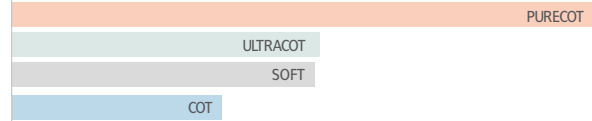

Thickness

The degree of thickness

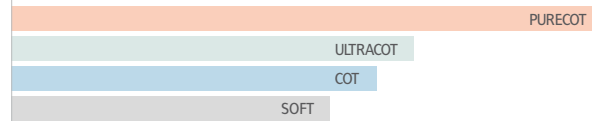

Strongest

The ability of a patty to resist tearing when moist

Longest Moisture Retention

How long a patty retains fluid before it dries, clings

COTTON

COT

Same properties of traditional Cotton patties, but thinner for better visibility

ULTRACOT

Same properties of traditional Cotton patties, but stronger and more pliable

PURECOT

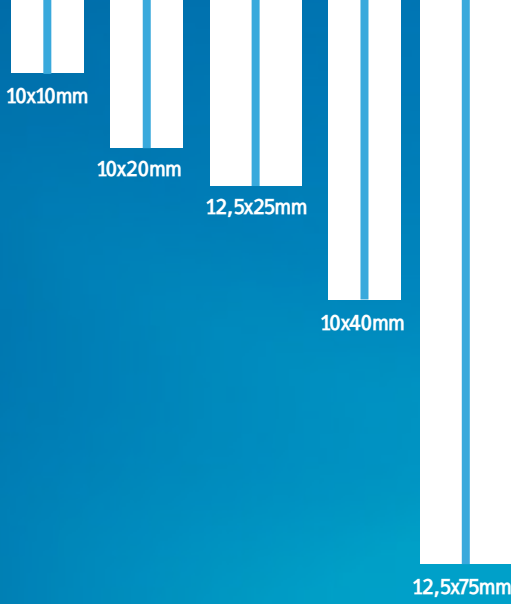

The only product has the highest absorbent capacity

VISCOSE

SOFT

The only product which is the thinnest and softest with high absorbency

COT		ULTRACOT		PURECOT		SOFT
